*Chantal Guillon*

## NEW STYLE

### THE OFFICIAL REASON

Always inspired by travel, driven by new challenge and excited by the diversity of cultures, Chantal brought the first Parisian Macaron to San Francisco in 2008. Pushing boundaries, and continuously looking for the new experience and for future challenges, Chantal is now, bringing to the Pastry scene, a NEW COLLECTION of surprising, creative flavors and INNOVATIVE products.

CG is adding surprises and new experiences to its motto  
«PASSION & QUALITY»

And as you know with Chantal, *"the pleasure of food starts with the eyes"*, (a full experience to share) so, a NEW STORE DESIGN & NEW PACKAGING was necessary - inspired by the best of our two worlds: our beloved modern Bay Area and today's Paris.

### WHAT'S CHANTAL SAYS WHEN YOU ASK HER

## WHY NOT?

### MORE INSIGHT ON CHANTAL

Bonjour, my name is Alexandra. I am Chantal's daughter and I thought I will share with you more about my mother, as she tends to not talk about herself ;)

Oh yes, she is non-stop my mother! I often wonder where she finds this energy and I believe it is a passion, a little bit of entrepreneur addiction, and a lot of love in wanting to treat and take care of the one she loves. She inspires her team by pushing us to excellence and educating us by example. A Parisian woman who came to a new country without speaking the language, started her third business, and is looking to the future at an age when most people are looking for ...?...  
Yes, this is our mom, this is our boss, this is our president!  
And we are proud to be her ambassadors of sweetness!
